

Prosthetics & Orthotics for Physicians & Therapists

April 21-24, 2025

Prosthetics & Orthotics for Physicians & Therapists is a comprehensive four-day course that covers foundational principles needed for physicians and allied health professionals to support effective prosthetic & orthotic care. Engaging lectures and interactive clinical experiences featuring actual patients provide an intensive review of surgical techniques, common orthotic & prosthetic interventions, biomechanics, materials sciences, and O&P treatment planning.

Learn from board-certified physicians, physical/occupational therapists, engineers, and prosthetists/orthotists engaged in education, clinical practice, and research.

Venue: Northwestern University Prosthetics-Orthotics Center
680 N. Lake Shore Dr - Suite 1100, Chicago, IL 60611

Registration: \$1,000

Register Today.
